

LIVING WATER

LivingWater is a pH-balancing, healthy alkaline water filter that connects to your sink and is used for drinking, cooking, and even cleaning purposes.

BENEFITS

- Provides acid-buffering alkaline water for drinking and cooking, right at your faucet
- Produces acidic water for cleaning without chemicals
- Generates water with excellent negative ORP (Oxidation Reduction Potential) for increased antioxidant properties
- Easily installs to your existing faucet with no special plumbing

“My whole family loves drinking the LivingWater. We love the smooth taste and having it right at our fingertips, instead of buying expensive, heavy bottles of alkaline water at the store. I also love knowing that we’re no longer drinking acidic tap water – but we can clean with it.”

- Mark A.

WHAT LIVINGWATER PROVIDES:

LivingWater produces water that provides more benefits than tap or bottled water. It helps buffer acid, remove toxins, and is easily absorbed by your body—all while providing great-tasting water and providing proper pH levels. pH levels range from 7-10 for alkaline drinking water and 1-6 for cleaning and personal care using acidic water.

WHAT IT DOES

LivingWater produces water that provides even more benefits than average tap or bottled water. It helps buffer acid, remove toxins, and is easily absorbed by your body all while providing great tasting water and giving you proper pH levels. pH levels range from 7-10 for alkaline drinking water and 1-6 for cleaning and personal care using acidic water.

FEATURES

- A multicolor LCD control panel tracks performance, including total liters produced, life indicators, and pH setting
- Easy to install with only 2 connections: water in and drain out
- A patented constant power output design monitors the TDS (Total Dissolved Solids) level of the source water while automatically adjusting to maintain a constant pH level
- Provides alkaline water for drinking and cooking; strong alkaline water for washing vegetables; and acidic water for cleaning without chemicals
- Removes toxins
- Improves water’s pH levels
- Improves the taste of water

MODEL	LIVINGWATER
Voltage	100-240 VAC/50-60 Hz
Electrical	2 Amp-6 Amp DC
Power	95W (max), 2 Amp
Water Filtration	Two filter system
Filter Life	up to 10,000 liters
pH Range*	2.0 to 11.0+
ORP Range*	+500 mV to -750 mV
Dimensions	10.8" x 12.4" x 5.5"
Weight	8.1 lbs.
Water Temp	39°F (4°C) to 95°F (35°C)
Warranty	Five (5) year

*depending on source water

GREAT FOR PEOPLE WHO:

- Who wants to increase pH levels in their water
- Concerned about staying hydrated
- Who wants a healthier choice for their family
